

## Module-03-Forms Questions

- ✓ Template Driven Form
- ✓ Reactive Form
- ✓ **Component Hooks/ lifecycle**
- ✓ Component Communication
- ✓ Dependency Injection

### Forms:

1. What are forms? Why are they used?
2. Different types of forms?
3. What is reactive forms? What are modules needed?
4. What is template forms? What are modules needed?
5. What does ngModel do in template forms?
6. What is a template reference variable and how would you use it?
7. reactive vs template forms?
8. Explain states of form
9. Explain Form Group , FormArray , FormBuilder

### Lifecycle Hooks:

1. What are the life cycle Hooks? How many?
2. Execution sequence of lifecycle hooks
3. Life cycle Hook When the input properties changes?
4. What is @Content Child and when it is Available?
5. What is @ViewChild and when it is Available?
6. Life cycle method where Cleanup Tasks can be done?

### Component Communication:

1. What is ElementRef
2. What is HostBinding and HostListener?
3. How to send data from Parent to Child?
4. How to send data from Child to Parent?
5. What are services in angular? Why needed?
6. What is Dependency Injection
7. What are injectors? What are providers?
